Let us help bring your **dream** home to life

Michael Gruber Design creates timeless custom interiors tailored to the needs of each individual client.

We are partners in our client's vision, not just those that make it happen.

MGD is an award-winning boutique interior design firm with 35 years of experience, specializing in hospitality and high end residential design. Our collaborative approach focuses on custom interiors that reflect our clients' vision and style.

“Your vision was exactly what we wanted!”

WOOTTEN HOUSE

Working with a team of architects, engineers including the fabricator of the Zaha Hadid condo at 28th Street NYC, we developed the full interior design for this modernist home in suburban Philadelphia. The use of natural and industrial materials plus modern classic furniture imbue this home with a warmth not typically associated with modernism.

CHESTNUT HILL HOUSE

We were tasked with integrating a large modern addition to an existing International Style residence belonging to a renowned 20th C. Decorative Arts dealer and family. Original architectural elements are contrasted with period French Art Deco furniture and furnishings. Custom MGD designed furniture was fabricated as well as modern European designer furniture and lighting incorporated, creating a timeless modern design statement.
